

Syed Mohammed Safiuddin A

Aspiring Software Engineer

☎ 8056049978 ✉ syedmdsafiuddin@gmail.com 🔗 linkedin 🐙 GitHub 📍 Chennai, India

PROFESSIONAL SUMMARY

Computer Science graduate transitioning into software engineering after professional experience in a client-facing role. Developed a strong foundation in **Java, Spring Boot, Microservices, React.js, MySQL, REST APIs, JWT, and AWS** through hands-on learning and real-world full-stack projects. Passionate about building **scalable backend applications** and continuously enhancing technical expertise.

WORK EXPERIENCE

Assistant Client Partner | Full-time Jun 2024 - Mar 2025
Access HealthCare On-site • Chennai, Tamil Nadu

- Resolved **over 90% of customer queries on the first interaction**, ensuring efficient issue resolution and high customer satisfaction.
- Maintained a **quality score exceeding 95%** by consistently adhering to company standards and communication guidelines.
- Achieved **98% SLA compliance** by managing customer requests within defined service timelines and operational targets.
- Collaborated with cross-functional teams to effectively resolve escalated customer issues while maintaining accurate case documentation.
- Ranked among the **Top 10 performers** within the team through consistent delivery of quality service and customer satisfaction.

Technologies / Skills Used : AthenaOne, Microsoft Excel

PROJECTS

Airline Reservation System (Microservices-Based Full Stack Application) | 🌐 Website 🐙 Github Oct 2025 - Nov 2025

Full Stack Developer

- Developed a full-stack **Airline Reservation System** utilizing **Java, Spring Boot, React.js, MySQL, JWT, REST APIs, and Microservices Architecture**.
- Engineered the backend with **7 Spring Boot microservices** and **1 API Gateway**, facilitating scalable and maintainable service communication.
- Implemented secure **JWT-based authentication** for user and admin workflows, enabling flight search, booking, and role-based access.
- Created a dynamic seat booking system that visualizes real aircraft cabin layouts, allowing selection of **Economy, Business, and First-Class** seats.
- Established an admin portal for managing aircraft models, flight schedules, pricing tiers, and automating seat generation based on aircraft configurations.
- Integrated **Razorpay Test API** for backend payment verification, ensuring secure validation of transactions prior to confirming flight bookings.

Technologies / Tools Used : React, SpringBoot, Java, Tailwind CSS, MySQL, PostgreSQL

EDUCATION

B.S.Abdur Rahman Crescent Institute of Technology | Chennai, Tamil Nadu, India 2020 - 2024
B.Tech CSE CGPA : 8.2

Gill Adarsh Mat Hr Sec School | Chennai, Tamil Nadu 2019 - 2020
Higher Secondary Certificate (HSC) CGPA : 61

Gill Adrsh Mat Hr Sec School | Chennai, Tamil Nadu 2017 - 2018
Secondary School Leaving Certificate (SSLC) CGPA : 87

SKILLS

Programming Languages :	Java, JavaScript, SQL
Frameworks & Libraries :	React, Spring Boot, Next.js
Tools & Platforms :	Git, GitHub, Postman
Databases :	PostgreSQL, MySQL, MongoDB
Soft Skills :	Communication, Problem Solving, Teamwork
Languages :	English
